Education

- **Fazaia Degree College Risalpur** 2017
  Matric
- **Fazaia Degree College Risalpur** 2019
  Fsc
- **Pakistan Degree College Nowshera** 2019
  Short Course (3 Months)
- **Pakistan Degree College Nowshera** 2022
  DIT (1 Year)
- **Virtual University of Lahore, Pakistan** 2024
  BS (Computer Science)
- **Pakistan Degree College Nowshera** 2025
  Web Development (Full Stack)

Skills

- Html
- CSS
- JavaScript
- React.js
- Node.js, Express.js
- MongoDB
- Git, GitHub

Projects

- **Full-Stack MERN E-Commerce App with Admin & Auth System**
  Developed a full-stack e-commerce web application using the MERN stack, enabling users to browse products, manage carts, and place orders seamlessly. Implemented secure authentication and authorization using JWT. Designed RESTful APIs for handling products, users, and orders. Built an admin dashboard to manage inventory, users, and orders efficiently. Integrated a responsive frontend using React for an optimized user experience.
- **Nowshera Medical Store - Full Stack CRUD Web Application**
  Developed a complete full stack CRUD web application for Nowshera Medical Store using HTML, CSS, Bootstrap, JavaScript, Node.js, Express.js and MongoDB. The application allows efficient management of products through create, read, update and delete operations. Backend REST APIs were implemented using Express.js with MongoDB used for secure and structured data storage, while the responsive frontend ensures smooth usability across devices.
- **Personal Portfolio Website (React.js)**
  Designed and developed a modern, responsive personal portfolio website using React.js to professionally showcase projects, technical skills and contact information. This website is built with reusable components and optimized for performance and responsiveness across multiple devices, providing a clean and user-friendly experience.

Interests

- Web Application Development and exploring modern technologies.
- Problem Solving and logical thinking through coding.
- Improving UI/UX design for better user experience.
- Building and optimizing full stack projects.
